

We published a scientific book regarding *Corynebacterium glutamicum*

**Book title: *Corynebacterium glutamicum*:
Biology and Biotechnology Second Edition
(Microbiology Monographs (23))**

Editors: Inui, Masayuki, Toyoda, Koichi

Publisher: Springer International Publishing

Copyright: 2020

URL: <https://www.springer.com/gp/book/9783030392666>

About this book:

This book summarizes cellular functions and the regulatory mechanisms of gene expression and protein function of *Corynebacterium glutamicum*, which we are studying and engineering for the production of substances useful for various applications. The book contents also include the application of *C. glutamicum* for bioproduction.

Table of contents:

■ **Part I. Characteristics of *Corynebacterium glutamicum***

1. Chromosome organization and cell growth of *Corynebacterium glutamicum*
Kati Böhm, Giacomo Giacomelli, Fabian Meyer, and Marc Bramkamp.
2. Architecture and biogenesis of the cell envelope of *Corynebacterium glutamicum*
Christine Houssin, Célia de Sousa d’Auria, Florence Constantinesco,
Christiane Dietrich, Cécile Labarre, and Nicolas Bayan.
3. Respiratory chain and energy metabolism of *Corynebacterium glutamicum*
Naoya Kataoka, Mienosuke Matsutani, and Kazunobu Matsushita.

■ **Part II. Regulation at various levels**

4. Sigma factors of RNA polymerase in *Corynebacterium glutamicum*
Miroslav Pátek, Hana Dostálová, and Jan Nešvera.
5. Global Transcriptional Regulators Involved in Carbon, Nitrogen, Phosphorus,
and Sulfur Metabolisms in *Corynebacterium glutamicum*
Koichi Toyoda and Masayuki Inui.

6. Post-translational modifications in *Corynebacterium glutamicum*
Saori Kosono.

■ **Part III. Amino acids**

7. Recent Advances in Amino Acid Production
Masato Ikeda and Seiki Takeno.

8. Pathways at Work – Metabolic Flux Analysis of the Industrial Cell Factory
Corynebacterium glutamicum
Judith Becker and Christoph Wittmann.

9. Amino acids exporters in *Corynebacterium glutamicum*
Masaaki Wachi.

■ **Part IV. Metabolic design for a wide variety of products**

10. Metabolic engineering in *Corynebacterium glutamicum*
Volker F. Wendisch and Jin-Ho Lee.

11. Aromatic compound catabolism in *Corynebacterium glutamicum*
Yukihiro Kitade, Kazumi Hiraga, and Masayuki Inui.

12. Aromatic compound production by *Corynebacterium glutamicum*
Takahisa Kogure, Takeshi Kubota, and Masayuki Inui.
