

# DEAR COLLEAGUES!

*The Global Energy Prize welcomes you  
and offers you a unique opportunity to become*

## THE 2016 GLOBAL ENERGY PRIZE NOMINATOR!

### ★ *What are the benefits of a nominator?*

**THE CHANCE TO LEAVE A MARK  
AND HIS/HER NAME IN THE  
HISTORY OF WORLD ENERGY!**

*By nominating a candidate, one could present a new Global Energy Prize laureate to the world's energy community, provided this candidate is considered the best. And the laureate's success will be inextricably related to the nominator!*

### ★ *What does it mean?*

**IT MEANS NOMINATING  
A CANDIDATE FOR THE AWARD!**

*As for the Global Energy Prize, it is an international independent award for outstanding scientific research and technological development in energy, which contribute to efficiency and environmentally friendly energy sources for the benefit of humanity.*

*Since 2003, it has been awarded to 34 outstanding scientists from 10 countries: Great Britain, Germany, Iceland, Canada, Russia, USA, Ukraine, France, Sweden and Japan. The laureates are annually presented with their award by the President of Russia or by a person on his behalf.*

*The list of those eligible to nominate a scientist for the Prize consists of 3000 scientists and energy experts from 83 countries of the world and is updated annually. And now you are invited to join them! Please note that self-nomination is not acceptable and the nomination right is free of charge! The nomination period is from October 1 through December 20.*
