

## Claude Létourneau's Bio

Claude Létourneau, President & CEO of Svante Technologies Inc. (Svante), is an industrial projects veteran renowned for his dynamic leadership. With a proven track record of steering large-scale projects from laboratory inception to full-scale industrial implementation, Mr. Létourneau is a visionary thinker whose approach is characterized by the 3Es of leadership – effort, energy, and excitement.

Possessing over three decades of experience in advancing technology development and commercialization, Claude plays a pivotal role in positioning Svante as a global leader in the development of a CO<sub>2</sub> Marketplace. His illustrious career includes senior management roles at industry giants such as Canam Group Inc., SNC-Lavalin Inc., and Kontron Embedded Computers AG. Additionally, he has founded two technology companies, Vaperma, Inc. (specializing in membrane-based gas separation) and Avestor Inc. (focusing on thin-film lithium polymer batteries).

Claude Létourneau's influential leadership extends beyond his role at Svante, earning him recognition as one of the *World's Most Influential Decision Makers* by the Wall Street Journal CEO Council. *This prestigious acknowledgment underscores his impact on the global stage and his commitment to driving positive change in the industry.*

A bilingual executive, Claude leverages his diverse expertise to forge strategic alliances and partnerships with like-minded industry leaders. His comprehensive understanding of technology development positions Svante for rapid business scale-up, guided by an aggressive time-to-market game plan.

Educationally, Claude holds a Bachelor of Applied Science in Chemical Engineering and a Master's in Chemical Engineering from the esteemed University Laval in Quebec, Canada. Grounded in both theoretical knowledge and practical application, Claude Létourneau continues to lead Svante toward a future where environmental responsibility and carbon capture initiatives redefine industry standards.
